Verse One

One last thought about it then I'll
stop, I'll forget it oh
They've been working us to the
bone,

We should make a plan to take a
trip out to Japan
I just want to spend some time on
our own

Pre-Chorus

Maybe we should slow down
Take a minute
It's only natural, in and out of phase
Yeah maybe we should slow down
Take a minute
It's never long that we feel out of
place

Chorus

I'll just fall back in love with you
Fall back in love with you
Back in love with you,
Whatever we go through
Fall back in love with you

Verse Two

Used to be so easy at the start,
can't forget it
I know that when we get there it's
on

When we get together there's a
magic that we share
All I want is for us to stay strong
